JENNEFER LEE

Student at Technological Institute of the Philippines

A fourth-year Bachelor of Science in Information Technology (BSIT) student with experience in freelance artistry. Specializing in innovative approaches to software and web development, as well as graphic design. Knowledgeable in database management, artificial intelligence, specifically in human-computer interaction, automation, and data analysis. Displayed effective team leadership, with capabilities in team management, adeptness under pressure, and time management. Recognized for meticulous attention to detail in planning and documentation, contributing to the successful execution of projects.
